COMPACK Series

One step shrink wrap machines without tunnel

PackagingSolutions

COMPACK Series

One step shrink wrap machines without tunnel

Technical Specifications

Max. Capacity: 5-10 pack / min "i Series" Max. Capacity: 7-12 pack / min "MC Series" Max. Roll Diameter: Ø300mm standard Working Height (E): 860mm (8000-i Series 970mm) Film Types: POF 7-37micron

PVC: 15-25micron Max. Product Height: 150mm (Optionally Higher) Color: Light gray RAL7035

Oom	DUCK 4000-1	
Max. Packaging Sizes (WxLxH): 150 x	350 x 150mm	
Max. Film Width: 400m	m	
Installed Power (50-60Hz): 200-2	40V, 15 Ampere, 1 Phase	
Consumption (Max. / Average): 4 kW	/ 3 kW	
Chamber Sizes: 450 x	300 x 250mm	
Dimensions (AxBxCxD): 1080x	600x1140x270mm	
Palletized Size (WxLxH): 800 x	1200 x 770mm	

Weight (Net / Gross): 100 kg / 130 kg

- Seal & shrink single-step application in the same chamber
- Practical and compact solution for low capacity packaging requirements
- Easily transportable on wheels inside a facility
- Timers and temperature controls by digital control panel
- Magnetic holder keeps the chamber hood closed automatically
- Adjustable perforators for air discharge during shrinkage

Intelligent Sealing System & Advantages:

- Sealing blade power is generated as much as it is needed
- Adaptive temperature power control during variable cycle times
- Start-up power for the sealing blade is controlled with intelligent system.
- Increased duration of composite blade-supports due to efficient heat control - Sustainable sealing quality and process accuracy by stabilized heat control

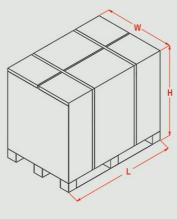

- Mechanical switch triggers heating of wire and chamber when the hood is closed
- Sealing is actuated in between wire and silicon rubber by manually closed hood
- Teflon belt covered silicon rubber increase sealing quality and life-span of silicon
- Sealing wire is embedded into heat-resistant composite fiber
- Solid state relays in electrical cabinet helps operating long-term and quietly

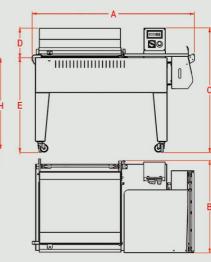

- Height adjustable package mesh tray for center sealing option
- Adjustable power of sealing blade against different film thickness
- Poly-bagging option (without shrink) by switching off the fan
- Temperature, timer other options are controlled with digital system - Various language options are available in digital control panel
- Service menu is available in digital control panel
- Film roll holder with easy to slide, load and align each package

- Working option without pressured air need
- ISO9001 quality standards with the relevant norm's confirmation
- CE certifications, complies with the latest CE directives
- World-wide approved brands for all mechanical and electrical components
- 1 year warranty for nonwearable parts against manufacturing faults
- 5 years spare part availability

^{*} MG: Magnetic hold down series, MC: Automatic discharge series
